

Capital reduction through cancellation of treasury shares

- **Cancellation of 694,300 treasury shares, representing approximately 6,34% of the share capital**

Paris, January 9, 2024– 5h45 pm

Eurobio Scientific (FR0013240934, ALERS, PEA-PME eligible), a leading French group in in vitro specialty medical diagnostics and life sciences, today announced that it has cancelled 694,300 of its own shares, representing 6,34% of the share capital, pursuant to the authorisation granted by the 10th resolution of the Annual General Meeting held on June 13, 2023. Due to the financial market processing times, this cancellation will take effect on January 11, 2024.

The share capital now amounts to €3 279 638,72, divided into 10 248 871 shares. Following this cancellation, Eurobio Scientific still directly holds 184 883 of its own shares in addition to the shares held under the liquidity contract (20,366 shares as of December 31, 2023).

The 694,300 shares cancelled were allocated to cover free share plans for Group employees and were reallocated for cancellation. The remaining treasury shares may be used in line with the Group's stated objectives for the use of treasury shares :

- covering free share plans for Group employees,
- share transfer in connection with company acquisitions, and
- share cancellation.

While maintaining the possibility of implementing the first two objectives, this treasury share cancellation enables the company to continue its share buyback program.

All cancelled shares had been bought back under Eurobio Scientific's share buyback programs in accordance with the authorisations granted by the General Meeting of Shareholders.

Reports and descriptions of the share buyback programs are available on the company's website under the heading "Reports on share buyback programs" on the page :
